We The People

See the US Constitution in a new light with this bold, modern and accessible illustrated guide to the document that helped define democracy. With the unprecedented events and actions that have tested the American political system over the last several years, including the violent overtaking of the U.S. Capitol Building, there has never been a better time to take a closer look at the Constitution, the bedrock of U.S. politics. As part of the critical discussion of current events at school and at home, inquisitive minds will have their questions vividly answered – and new ones raised – by a mix of striking illustrations and clear, engaging text, including passages from the Constitution given in plain English. As well as a detailed history covering the original Constitution, the Bill of Rights and all Amendments, discover how this milestone in American democracy shapes and is shaped by the world at large. We The People shows that, far from a fusty old piece of paper, the US Constitution is a living, evolving rule book that is as relevant today as it has ever been. A fresh take on a monumental document, navigating in style its history and its life today. Excerpts from the Constitution are presented here in plain English to help young thinkers better understand the role it plays in everyday life. Accessible, energetic text accompanied by contemporary, powerful illustrations allows children aged 10 and older to re-think the Constitution in a totally new way. A balanced examination that does not shy away from addressing the difficulties of interpreting and adapting the Constitution for the modern world. We The People takes the Constitution out of its display case, blows off the dust and re-imagines this piece of history for the next generation.

I Am the People

The forms of liberal government that emerged after World War II are in the midst of a profound crisis. In I Am the People, Partha Chatterjee reconsiders the concept of popular sovereignty in order to explain today's dramatic outburst of movements claiming to speak for “the people.” To uncover the roots of populism, Chatterjee traces the twentieth-century trajectory of the welfare state and neoliberal reforms. Mobilizing ideals of popular sovereignty and the emotional appeal of nationalism, anticolonial movements ushered in a world of nation-states while liberal democracies in Europe guaranteed social rights to their citizens. But as neoliberal techniques shrank the scope of government, politics gave way to technical administration by experts. Once the state could no longer claim an emotional bond with the people, the ruling bloc lost the consent of the governed. To fill the void, a proliferation of populist leaders have mobilized disaffected groups into a battle that they define as the authentic people against entrenched oligarchy. Once politics enters a spiral of competitive populism, Chatterjee cautions, there is no easy return to pristine liberalism. Only a counter-hegemonic social force that challenges global capital and facilitates the equal participation of all peoples in democratic governance can achieve significant transformation. Drawing on thinkers such as Antonio Gramsci, Michel Foucault, and Ernesto Laclau and with a particular focus on the history of populism in India, I Am the People is a sweeping, theoretically rich account of the origins of today's tempests.

THE STORY OF THE YOUNG PEOPLE PLAYED IN AMERICAN HISTORY.

And Then They Stopped Talking to Me

\"The French have a name for the uniquely hellish years between elementary school and high school: \"Tage ingrat\" or \"The Ugly Age.\" Characterized by a perfect storm of developmental changes-physical, psychological, and social-the middle-school years are a time of great distress for parents and children alike, marked by hurt, isolation, exclusion, competition, anxiety, and often outright cruelty. Some of this is inevitable; there are intrinsic challenges to early adolescence. But these years are harder than they need to be, and Judith Warner believes that adults are complicit.With piercing insight, compassion, and humor, Warner walks us through a new understanding of the role that middle school plays in all our lives. Part intellectual investigation and part call to action, this timely book unpacks one of life's most formative periods and shows how we can help our children not only survive it, but thrive!\"--

Land of Hope

For too long we've lacked a compact, inexpensive, authoritative, and compulsively readable book that offers American readers a clear, informative, and inspiring narrative account of their country. Such a fresh retelling of the American story is especially needed today, to shape and deepen young Americans' sense of the land they inhabit, help them to understand its roots and share in its memories, all the while equipping them for the privileges and responsibilities of citizenship in American society The existing texts simply fail to tell that story with energy and conviction. Too often they reflect a fragmented outlook that fails to convey to American readers the grand trajectory of their own history. This state of affairs cannot continue for long without producing serious consequences. A great nation needs and deserves a great and coherent narrative, as an expression of its own self-understanding and its aspirations; and it needs to be able to convey that narrative to its young effectively. Of course, it goes without saying that such a narrative cannot be a fairy tale of the past. It will not be convincing if it is not truthful. But as Land of Hope brilliantly shows, there is no contradiction between a truthful account of the American past and an inspiring one. Readers of Land of Hope will find both in its pages.

Lies My Teacher Told Me

A People's History of the United States

Since its original landmark publication in 1980, A People's History of the United States has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the, workplace. Known for its lively, clear prose as well as its scholarly research, A People's History is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, A People's History of the United States, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new after, word by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

Middle School Matters

A counselor and popular Washington Post contributor offers a new take on grades 6-8 as a distinct developmental phase--and the perfect time to set up kids to thrive. Middle school is its own important, distinct territory, and yet it's either written off as an uncomfortable rite of passage or lumped in with other developmental phases. Based on her many years working in schools, professional counselor Phyllis Fagell sees these years instead as a critical stage that parents can't afford to ignore (and though \"middle school,\" includes different grades in various regions, Fagell maintains that the ages make more of a difference than the setting). Though the transition from childhood to adolescence can be tough for kids, this time of rapid physical, intellectual, moral, social, and emotional change is a unique opportunity to proactively build character and confidence. Fagell helps parents use the middle school years as a low-stakes training ground to teach kids the key skills they'll need to thrive now and in the future, including making good friend choices, negotiating conflict, regulating their own emotions, be their own advocates, and more. To answer parents' most common questions and struggles with middle school-aged children, Fagell combines her professional and personal expertise with stories and advice from prominent psychologists, doctors, parents, educators, school professionals, and middle schoolers themselves.

Content Matters

A critical question in social studies education is not whether teachers develop and teach units of study, but what is in the units of study teachers develop and teach. Curricular planning and instruction must focus on what we teach in the social studies classroom. It is not uncommon for students to experience fine units about the westward movement and exit the fifth grade with little or no geographic literacy. Most students leave middle school grades unable to name even one person who made a difference in the history of Indian people in the United States. After three to five years of history classes, high school students routinely self-report that history is boring. And it is the rare middle school graduate who knows how to use a free enterprise economy for his or her benefit. This book explains the content of nine areas in social studies. If teachers know what history, biographical studies, and the United States Constitution mean for instruction, they can increase the probability of better-focused content in their social studies instruction.

Brown Girl Dreaming

A New York Times Bestseller and National Book Award Winner Jacqueline Woodson, the acclaimed author of Red at the Bone, tells the moving story of her childhood in mesmerizing verse. Raised in South Carolina and New York, Woodson always felt halfway home in each place. In vivid poems, she shares what it was like to grow up as an African American in the 1960s and 1970s, living with the remnants of Jim Crow and her growing awareness of the Civil Rights movement. Touching and powerful, each poem is both accessible and emotionally charged, each line a glimpse into a child’s soul as she searches for her place in the world. Woodson’s eloquent poetry also reflects the joy of finding her voice through writing stories, despite the fact that she struggled with reading as a child. Her love of stories inspired her and stayed with her, creating the first sparks of the gifted writer she was to become. A National Book Award Winner A Newbery Honor Book A Coretta Scott King Award Winner Praise for Jacqueline Woodson: Ms. Woodson writes with a sure understanding of the thoughts of young people, offering a poetic, eloquent narrative that is not simply a story . . . but a mature exploration of grown-up issues and self-discovery.”—The New York Times Book Review

U.S. History

U.S. History is designed to meet the scope and sequence requirements of most introductory courses. The text provides a balanced approach to U.S. history, considering the people, events, and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). U.S. History covers key forces that form the American experience, with particular attention to issues of race, class, and gender.

Why Are All the Black Kids Sitting Together in the Cafeteria?

The classic, New York Times-bestselling book on the psychology of racism that shows us how to talk about race in America. Walk into any racially mixed high school and you will see Black, White, and Latino youth clustered in their own groups. Is this self-segregation a problem to address or a coping strategy? How can we get past our reluctance to discuss racial issues? Beverly Daniel Tatum, a renowned authority on the psychology of racism, argues that straight talk about our racial identities is essential if we are serious about communicating across racial and ethnic divides and pursuing antiracism. These topics have only become more urgent as the national conversation about race is increasingly acrimonious. This fully revised edition is essential reading for anyone seeking to understand dynamics of race and racial inequality in America.

We the People

A revolutionary memoir about domestic abuse by the award-winning author of Her Body and Other Parties In the Dream House is Carmen Maria Machado’s engrossing and wildly innovative account of a relationship gone bad, and a bold dissection of the mechanisms and cultural representations of psychological abuse. Tracing the full arc of a harrowing relationship with a charismatic but volatile woman, Machado struggles to make sense of how what happened to her shaped the person she was becoming. And it’s that struggle that gives the book its original structure: each chapter is driven by its own narrative trope—the haunted house, erotica, the bildungsroman—through which Machado holds the events up to the light and examines them from different angles. She looks back at her religious adolescence, unpacks the stereotype of lesbian relationships as safe and utopian, and widens the view with essayistic explorations of the history and reality of abuse in queer relationships. Machado’s dire narrative is leavened with her characteristic wit, playfulness, and openness to inquiry. She casts a critical eye over legal proceedings, fairy tales, Star Trek, and Disney villains, as well as iconic works of film and fiction. The result is a wrenching, riveting book that explodes our ideas about what a memoir can do and be.

In the Dream House

A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher’s carefully constructed world falls apart when he finds his neighbour’s dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents’ marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher’s mind. And herein lies the key to the brilliance of Mark Haddon’s choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

The Curious Incident of the Dog in the Night-Time

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Meis that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective Peopleto a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.
